

# WisePartners

## Why Being a WisePartner Matters

In order to stem the tide of chronic kidney disease, it will take a collaborative effort. Joining with KidneyWise and our WisePartners Program will ensure a greater impact than any individual partner could achieve on its own.

KidneyWise will rally the world's best thought leaders, medical researchers, corporate entities and entrepreneurs for the common good of stopping chronic kidney disease in its tracks. WisePartners have access to mobilized resources and volunteers as well as the millions of people we've engaged through our national platform. Together we can achieve positive outcomes while our partners receive awareness and recognition for their roles in building healthier communities and a healthier nation.

## The benefits of partnering with KidneyWise will enable you to:

- Be part of a national movement that is redefining prevention
- Leverage your existing programs and resources for greater impact
- Bring additional thought leaders and innovators to the mission
- Bring awareness to a silent epidemic that has affected so many
- Help reduce the burden of soaring public healthcare costs
- Make a measurable difference in your workplace and community
- Play an important role in reshaping public policy and moving it forward
- Build cross-promotion opportunities with other WisePartners
- Be recognized for your outstanding work

## WisePartners actively support and engage in KidneyWise initiatives

- WiseCommunities
- National Summits
- Community Summits
- Participation in Events
